

## KANZAROO DCB-AVS

### DCB for age- restricted content with an integrated AVS

#### Product Summary

Introducing kanzaroo DCB-AVS: The ultimate solution for integrating age verification services (AVS) into your Direct Carrier Billing (DCB) process seamlessly.

#### For Merchants

- *Compliance Simplified:* Stay within legal guidelines e.g. in Germany for selling age-restricted content online with an integrated AVS
- *Seamless Integration:* Our solution fits effortlessly into your existing payment process, ensuring an uninterrupted user experience.
- *Enhanced Trust:* Build stronger relationships with your customers by ensuring their safety and privacy.
- *Greater Market Reach:* Expand your customer base by confidently selling age-restricted content online.

#### For Users

- *Uninterrupted Experience:* Enjoy a smooth buying process with integrated AVS, with no need to navigate away from the purchase page.
- *Privacy Assured:* Your personal details are securely handled and privacy is maintained.
- *Quick and Convenient:* Direct Carrier Billing makes purchases swiftly without needing a credit card or any additional registration.
- *Secure Transactions:* Feel safe knowing your age is verified through a trusted and secure system.

#### Key Product Features and Benefits:

- Age verification is only activated when legally required.
- There is no need for additional technical or commercial integration for KYC/AVS on the merchant's side.
- Costs for the AVS process can be passed on to consumers or borne by the merchant.
- A reserve-capture mechanism ensures that an AVS check is only processed after a successful payment reservation, reducing the risk of uncovered AVS checks.

**Expand Your  
Audience  
to Attract New  
Paying Users!**

Experience the kanzaroo DCB-AVS difference today.  
Selling age-restricted content online has never been easier or more secure!
